CLEARWATER
COMPOSITES , LLC

Notes and Comments

- **Mandrel Diameter:** Outside diameter of the mandrel. This will be the approximate tube inside diameter. Actual tube ID is part specific and dependent on laminate design, mandrel material, and other factors.
- **Maximum Tube Length:** Max tube length is material and part specific. Some unique materials and designs have length restrictions.
- **Shapes:** Square, rectangles and hexagons are measured flat to flat.
- **Capacity:** Weekly master tube capacity is based on number of mandrels and other orders. Check with sales at time of order for current weekly capacity.
- **Other Sizes:** Our mandrel list is ever changing. If you do not see the mandrel diameter you need, reach out to our sales team for an updated list.
